CONTENTS

Arrondo, Enrique, Schwarzenberger bundles of arbitrary rank on the projective space 697

Baruch, Ehud Moshe and Mao, Zhengyu, A generalized Kohnen–Zagier formula for Maass forms 1
Behrndt, Jussi and Langer, Matthias, On the adjoint of a symmetric operator 563
Bouganis, Thanasis, Special values of L-functions and false Tate curve extensions 596
Bradley, J. D., Curtis, R. T. and Malik, M. Aslam, Symmetric generation of the Rudvalis group 643

Cameron, Jan, Fang, Junsheng, Ravichandran, Mohan and White, Stuart, The radial masa in a free group factor is maximal injective 787
Choi, S., Panov, T. and Suh, D. Y., Toric cohomological rigidity of simple convex polytopes 343
Cobos, Fernando, Fernández-Cabrera, Luz M. and Mastyło, Mieczysław, Abstract limit J-spaces 501
Curtis, R. T., *see* Bradley, J. D.

Dolfi, Silvio, Pacifici, Emanuele, Sanus, Lucia and Spiga, Pablo, On the vanishing prime graph of finite groups 167

Fang, Junsheng, *see* Cameron, Jan
Fejzić, H., Freiling, C. and Rinne, D., Linear recurrence relations on measurable sets 717
Fernández-Alcober, G. A. and Morigi, M., Outer commutator words are uniformly concise 581
Fernández-Cabrera, Luz M., *see* Cobos, Fernando
Frączek, K. and Lemańczyk, M., A note on quasi-similarity of Koopman operators 361
Freiling, C., *see* Fejzić, H.

Garcia-Calcines, J. and Vandembroucq, L., Weak sectional category 621
Geisinger, L. and Weidl, T., Universal bounds for traces of the Dirichlet Laplace operator 395
Georgakopoulos, Agelos, Uniqueness of electrical currents in a network of finite total resistance 256
Gonek, S. M. and Keating, J. P., Mean values of finite Euler products 763
Gordon, Cameron and Wilton, Henry, On surface subgroups of doubles of free groups 17

Halic, M., Cohomological properties of invariant quotients of affine spaces 376

Kawada, Koichi and Wooley, Trevor D., Relations between exceptional sets for additive problems 437
Keating, J. P., *see* Gonek, S. M.
Kerner, Dmitry, On some generalizations of Newton non-degeneracy for hypersurface singularities 49

Landsberg, J. M. and Robles, C., Lines and osculating lines of hypersurfaces 733
Langer, Matthias, *see* Behrndt, Jussi
Le Calvez, Patrice, Ruiz del Portal, Francisco R. and Salazar, José M., Indices of the iterates of $\mathbb{R}^3$-homeomorphisms at fixed points which are isolated invariant sets 683
Lemańczyk, M., *see* Frączek, K.

Malik, M. Aslam, *see* Bradley, J. D.
Mao, Zhengyu, *see* Baruch, Ehud Moshe
Marasingha, Gihan, Almost primes represented by binary forms 295
Marks, Christopher and Mason, Geoffrey, Structure of the module of vector-valued modular forms 32
Mason, Geoffrey, *see* Marks, Christopher
Mastyło, Mieczysław, *see* Cobos, Fernando
Milbers, Zoja and Schuricht, Friedemann, Existence of a sequence of eigensolutions for the 1-Laplace operator 74
Morigi, M., *see* Fernández-Alcober, G. A.

Natali, Fábio, Unstable snoidal waves 810

Pacifici, Emanuele, *see* Dolfi, Silvio
Panov, T., *see* Choi, S.
Peter, Jörn, Hausdorff measure of Julia sets in the exponential family 229
Pheidas, Thanases and Vidaux, Xavier, Corrigendum: The analogue of Büchi's problem for rational functions 273
Příhoda, Pavel and Puninski, Gena, Classifying generalized lattices: some examples as an introduction 125
Puninski, Gena, *see* Příhoda, Pavel

Ranieri, Gabriele, Power bases for rings of integers of abelian imaginary fields 144
Ravichandran, Mohan, *see* Cameron, Jan
Rinne, D., *see* Fejzić, H.
Robles, C., *see* Landsberg, J. M.
Ruiz del Portal, Francisco R., *see* Le Calvez, Patrice

RYDH, DAVID and SKJELNES, ROY, An intrinsic construction of the principal component of the Hilbert scheme 459

SABOURAU, STÉPHANE, Local extremality of the Calabi–Croke sphere for the length of the shortest closed geodesic 549
SALAZAR, JOSÉ M., *see* Le Calvez, Patrice
SALBERGER, PER and WOOLEY, TREVOR D., Rational points on complete intersections of higher degree, and mean values of Weyl sums 317
SALVY, BRUNO and SHACKELL, JOHN, Measured limits and multiseries 747
SANUS, LUCIA, *see* Dolfi, Silvio
SCHRÖER, STEFAN, On the ring of unipotent vector bundles on elliptic curves in positive characteristics 110
SCHURICHT, FRIEDEMANN, *see* Milbers, Zoja
SHACKELL, JOHN, *see* Salvy, Bruno
SKALSKI, ADAM and ZACHARIAS, JOACHIM, Approximation properties and entropy estimates for crossed products by actions of amenable discrete quantum groups 184
SKJELNES, ROY, *see* Rydh, David
SMITH, SIMON M., Subdegree growth rates of infinite primitive permutation groups 526
SPIGA, PABLO, *see* Dolfi, Silvio
SUH, D. Y., *see* Choi, S.

TAMVAKIS, HARRY, Schubert polynomials and Arakelov theory of symplectic flag varieties 89

VANDEMBROUCQ, L., *see* Garcia-Calcines, J.
VIDAUX, XAVIER, *see* Pheidas, Thanases
